

POSTAL BANK BOND PLANS

They Are to be Issued in \$20 Denominations

LITTLE HELP TO SCHEME

By Foreign Governments—It Will Lessen the Money Sent Abroad—Forms for Reclamation Bonds Nearly Ready.

Washington, Aug. 3.—By the end of this week, treasury officials expect to lay before Secretary MacVeagh the details of the postal savings bond forms and those for the new reclamation bonds. Samples of the postal savings bonds have been received at the treasury from the bureau of engraving. Those of the reclamation bonds are nearly ready.

The postal bonds are to be issued in denominations of \$20 and multiples thereof, to and including \$100. The question is whether they shall be registered or coupon bonds. The probabilities are that the larger ones will be registered, and the smaller coupon bonds. It is expected to be some months after the postal savings system is in operation before the postal bonds are in demand. As to the reclamation bonds, in view of the fact that the army engineers must pass on projects before any of the proceeds of the bonds can be utilized on them, it is likely to be a year or more before they are used.

Foreign governments are showing so little readiness to give information to the post office department concerning the workings of their postal laws, that the suspicion is gaining ground here that they are anxious to delay and hamper the establishment of these institutions. Facts are being obtained as to details of management, such as would be useful in this country in putting in the new system with the utmost difficulty. Officials charged with the duty of getting this information find much trouble. The reason for this conduct, it is believed here, is that now many millions of dollars are sent by immigrants who have been in this country for a short time back to their relatives in Europe. Much of this is sent back to be put into the postal savings banks abroad. If this country establishes a sound system, it will follow that much of the drain of Europe will be cut off.

AT BRETON WOODS.

Preliminary Session of Forest Society Meeting.

Bretton Woods, Aug. 3.—With a preliminary session yesterday afternoon, the Society for the Protection of New Hampshire Forests opened its ninth annual meeting here. A discussion of methods of forest fire fighting by forest fire wardens of various towns in the state occupied most of the time yesterday. To-day, addresses will be delivered by the state foresters of New Hampshire, Massachusetts and Vermont, and Congressmen Frank D. Carrier of New Hampshire and George P. Lawrence of Massachusetts are also expected to speak.

ANOTHER MRS. RICKER.

A Case Like Her's Arises in Connecticut.

New Haven, Ct., Aug. 3.—The legal opinion given in New Hampshire that the name of Mrs. Marilla M. Ricker of Dover cannot legally go upon the official ballot to be used in the primary election for nominating a Republican candidate for governor has attracted attention in Connecticut, where a somewhat like question may arise.

The Socialist party has named Ella Reeve Bloor of Waterbury for secretary of state on its state ticket. While no action has yet been taken, it is anticipated that the attorney general will be asked for an opinion on the power of the secretary of state to place Mrs. Bloor's name on the Australian ballot, which will be used for the first time in November election.

Mrs. Bloor's nomination, it is believed, is the first one of a woman for a state office in Connecticut.

She has been prominent in Socialist party ranks, coming here from Colorado and two years ago doing considerable campaigning. She was on a commission appointed by President Roosevelt to inquire into stockyard conditions.

The state constitution provides that no person who is not an elector of the state has a right to vote for governor. This qualification is presumed to govern the election of other state officers. No law has ever been passed making women electors under this section of the constitution.

COAL DOCKS DYNAMITED.

Two Heavy Charges Exploded in Superior, Wis.

Duluth, Minn., Aug. 3.—Two heavy charges of dynamite were exploded at the Philadelphia & Reading coal docks in Superior, Wis., early yesterday. The docks were nearing completion. A steel unloading rig weighing 580 tons and costing \$80,000, was thrown down and partly wrecked. The contracting firm operates on the open shop plan, but has never had any labor trouble.

Morning Headache

Eat a light breakfast of easily digested food, then take a dose of Hood's Pills. This simple treatment usually clears up the head in an hour, and gives a feeling of health and strength all day.

Diamond Scintillations.

Bill Heinrich, the Washington pitcher, has developed a case of infantile paralysis in the right arm. The disease seldom attacks adults.

Third baseman Corcoran of the Buffalo team has been purchased by manager Griffith of the Cincinnati Reds.

Local fans will be glad of the chance to see Jack Fraser, the former Goddard twirler, work out again in this city.

An unusual game was played between the Hudson (N. Y.) team and the Catskills recently. Neither side scored in the first 12 innings, and in the 13th a dispute over a decision broke up the contest.

President Powers of the Eastern league has suspended umpire Stafford and manager Dunn of Baltimore for fighting on the ball field.

In the last five games, the Giant pitchers have totaled three bases on balls. Witale, Crandall and Ames have not passed a man. Drunk has allowed one to walk, while "Matty," the "peerless one," has issued two cheap bases.

The old American league park at Chicago, where three championship pennants and one world's championship flag have fluttered, is to be demolished by contractors. Portions of the structural work will be removed to Thirty-fourth street and Shields avenue.

Says the Boston Post: "Opportunity often is the turning point in a baseball player's career. Take Larry Gardner of the Red Sox. An accident to Ambly McConnell gave Gardner a chance to show his colors, and maybe he has not made good? Guess Ambly will not be seen at second for some time."

By pitching 279 innings, pitcher Brown of New Britain holds this year's Connecticut league record. He has allowed 181 hits and 90 runs.

"Connie Mack" emphatically denies the statement that he has the lowest salary in the American league.

Ed. Killian has been sold by the Tiger management to the Toronto team of the Eastern league. The transaction was completed Monday.

The Springfield team of the Connecticut league has played 1 per cent. errorless games this season.

Bender leads the American league pitchers with 15 victories and 3 defeats. Karger, the Red Sox marvel, is second with 11 victories out of 14 games pitched.

Says the Springfield Republican: "One of the most dependable pitchers on the staff of the Boston Americans at present is Collins, the left-hander, who was a sensation when at the university of Vermont."

Eight pitchers of the Eastern league have the distinction of allowing their opponents but one hit in games this year.

Cincinnati has granted Arthur Fromme leave of absence for the remainder of the season, on account of ill health.

President Lynch of the National league has announced the following suspensions: By New York, A. L. Raymond; by Boston, C. I. Herzog and G. C. Ferguson.

According to one critic, Johnson of Washington, pitching with any of the four leading teams in the American league, would outclass Walsh, Joss, Bender, Collins, Ford or Coombs.

TWO NEW RECORDS MADE BY GEERS

Veteran Driver Celebrated His Return to Track by Some Sensational Performances at Detroit Yesterday.

Detroit, Mich., Aug. 3.—Two new records and some excellent sport marked the second day of the grand circuit meeting at the state fair grounds. Driving for the first time since his injury at Grand Rapids two weeks ago, E. F. Geers celebrated his return to the sulky by driving The Harvester the two fastest miles ever trotted by a stallion, each mile being negotiated in 2:04 1/4.

Crescent held the former two-beat records for stallions and Bob Douglass, who twice finished second to The Harvester yesterday, held the five year old stallion record of 2:09 1/4.

Geers drove the Able to victory in the Chamber of Commerce \$5,000 stake,

winning three straight heats, after being beaten at the wire by Evelyn W. in the first heat.

In the 2:07 trot, which developed the new champion, The Harvester won the heats practically as he pleased. At no time was he extended to the limit. Country Jay was popular with the crowd, but the best he could get was a division of third and fourth places with Spanish Queen. Bob Douglass was the only near contender in the race and The Harvester left him behind in both heats when approaching the wire.

Miss Stokes, the champion trotter as a earling, was picked to win the Horseman and Spirit of the Times \$9,000 futurity for three years old, but she broke badly when crowded and third place was the best she could get.

Geer's victory in the Chamber of Commerce stake yesterday was the veteran's fifth victory in this event.

LIVELY TENNIS FOR THE TITLE

Spirited Contests Expected at Newport Tourney August 15—The Australian Champion Is to Play.

This is the period of the lawn tennis season in which the tournament players carefully scrutinize past performances and strive to read the records that form has revealed. It is their endeavor to discern to what extent the victories and defeats of the leaders may be considered as having a bearing upon the great event of the year, the all comers' national championship on the courts of the Casino at Newport, R. I., Aug. 15. There is a double interest attached to the study of the records at this time, as it is a practical certainty that the great and famous Australian, Anthony F. Wilding, who won the all England championship in the challenge round at Wimbledon from Arthur W. Gore, will compete for the highest American honors. Wilding is taking a wedding tour of the world and naturally is visiting the lawn tennis courts, to which he has been devoted for years. South Africa, the Riviera, and more recently the greatest of all English tournaments have yielded to the skill of his racket. It was in the finals of the latter that Wilding defeated the American former champion and internationalist, Benis C. Wright.

It is the prospect of being faced with the problem of saving the American championship and not losing it, as was the case when Hugh Lawrence Doherty, the famous little Englishman, won in 1903, that has caused the American followers of the game to take stock, as it were, of the situation. To begin with, it is not at all pleasant to consider that William A. Larned, the present holder, is still somewhat crippled because of tendons that he pulled in his semifinal match against Carleton R. Gardner in the Metropolitan. Still, it will be remembered that Larned suffered a like injury last year during the time of playing the doubles at the Country club at Westchester, N. Y., that he overcame the injury and in season returned to his form to continue his holding of the famous Longwood cup at Boston and later his national title.

But Larned is always an uncertainty against a stranger and a foreigner. His nervous temperament is such that unless his recovery is speedy there is a grave doubt as to whether or not he can overcome Wilding, for to do so he must unquestionably be at his best. This, of course, presupposes that Wilding is not defeated by some American

WILLIAM A. LARNED, FIVE TIME NATIONAL CHAMPION.

on his way through the tournament. But the question naturally arises, Who is strong and skillful enough to check Wilding? Benis Wright may be far better on his home courts than he was in England, and it took Wilding the full five sets to defeat Wright. Of course in this country the shade of advantage will be upon the American side.

As one looks over the field a group of names of recent performers who have displayed great skill rises from the records. On the list is Frederick B. Alexander, Gustave F. Touchard, Nathaniel W. Niles, Wallace F. Johnson, Theodore Roosevelt Pell, Carleton R. Gardner, the two Californians, Maurice E. McLaughlin and Melville H. Long, and the young and clever player, Charles L. Johnston, Jr., and another of the same class, George M. Church.

TRYING TO SAVE NEW YORK

Republican Leaders Worried by Conditions

TAFT AND ROOSEVELT

Plan Conference in Connecticut—Situation in Ohio Considered Hopeless. Effort to Prevent Loss of Other Party Strongholds.

Washington, Aug. 3.—Information has reached here that President Taft and Theodore Roosevelt are going to meet again in a short time. The meeting, according to a letter received here, will be at Greenfield Hill, Conn., which is near Bridgeport. County Chairman Lloyd Griscom has a country home there, and the two will confer at the Griscom mansion.

The conference is expected to concern New York politics, especially, and to be with the object of solving the Republican situation there, with respect to nominating a man for governor. That President Taft and Col. Roosevelt did not talk politics at their first meeting is now well known.

It is asserted that the failure of Col. Roosevelt to take up political matters at the first conference is in some degree disturbing to Mr. Taft's friends, and they would like further opportunity to go into the political situation. But, regardless of this, the fact that a meeting is to be held at the Griscom home seems to indicate that New York political matters are considered of prime importance and will be the paramount topic.

No official verification is given here of the proposed meeting. The information is contained in a letter from Bridgeport, from a source usually well informed.

The fact that President Taft, Colonel Roosevelt and Mr. Griscom were to discuss the New York situation with a view to harmonizing the factions in New York state has been kept secret, and only became known when a letter giving details of the arrangement was received at Washington.

INSURGENTS MAKE GAIN.

Kansas Elections Point to Victory of Opponents of "Stand Pat's."

Topeka, Kansas, Aug. 3.—Indications Monday night pointed to a decided insurgent gain in Kansas as a result of Monday's primary election. The nomination of Governor Stubbs, who linked his fortunes with those of the insurgent candidates for Congress, seemed assured, although returns were meagre. Running close to him is R. J. Hopkins, insurgent candidate for lieutenant governor.

EXPORTS OF BIRDS' NESTS.

Siam Supplied \$109,848 Worth Last Year for Soup.

Washington, Aug. 3.—The "bird's nest soup," \$2 per plate, which appears on Chinese restaurant bills of fare, is or may be a delicacy made from real birds' nests, which form a unique item in the export trade of Siam, says Vice Consul-General Carl C. Hansen of Bangkok, in a report to the state department.

Shipments from Siam during the fiscal year of 1909 amounted to 17,761 pounds, was valued at \$109,848, most of which were taken by Chinese cities, especially Hongkong and Singapore. What part of these exports reaches the United States was not reported.

Now Watch the Cubs.

Now that the indications are that Reulbach and Overall are all right again the Chicago Nationals look all the more formidable.

Horse Racing in Mexico. There will be 100 days of racing at Juarez, Mexico, next winter, beginning Nov. 25. The purses will aggregate \$900,000.

FAIRY TALE READERS, GAZE UPON THIS.

Hans Andersen has been dead for many, many years, and hundreds of writers have tried hard to emulate his famous fairy tales. None has succeeded until recently, when one man did so. Being too modest of his success in filling Hans' shoes, he failed to give his name. Later we will hear from him. His first yarn is a corker and one that will leave a lasting impression upon all those who read it. Now start all together:

Anderson, center fielder of the Deep Haven (Minn.) team, promises to eclipse in historic fame Casey of Mudville. In a game with the Prince Realty team of Minneapolis on Excelsior diamond recently Anderson caught a fly, shutting off three runners. After a long run Anderson fell into the lake, turned on his back and caught the fly, swam to shore and Deep Haven won. This was in the eighth with the score 9 to 4 in favor of Deep Haven. The umpire says he knew Anderson caught the ball because he lives in Deep Haven and knows the fielder cannot dive.

Union Men Like Morse-Made Clothes

They like them because they are union-made. They represent what the union men believe in—the square deal.

They are made by union workmen, under most pleasant and healthy conditions. Made by the best union tailors in the country—artists in their craft.

Men who are satisfied and interested in their work naturally produce better results.

Hence the splendid tailoring that makes a man clothed in a Morse-made Suit stand out from the crowd.

You never saw the equal of a Morse-made Suit at anywhere near the price—investigate

Suits \$10 to \$25

Moore & Owens, Barre's Leading Clothiers,
122 No. Main St., Barre.

ROME DENIES

MADRID NOTE

Vatican Says It Never Meant to Grant to Maura What It Now Refuses.

Rome, Aug. 3.—The statement issued by Premier Canalejas, bearing on the controversy between the church and the state has been carefully perused by the Vatican officials, who wish it to be clearly understood that that part of the statement in which it is declared that the Holy See intended to concede to the Spanish government less than what was agreed to in 1904, is without foundation, in fact. It is Canalejas, they declare, who now wants greater concessions than those of 1904, on the plea that they were granted to the then Premier Maura and that Canalejas believed them to be at that time insufficient.

In answer to this the Holy See reports that it deals with the Spanish government, not with parties in the Cortes.

KING'S DECLARATION AMENDED.

Bill Finally Passes the House of Lords in England.

London, Aug. 3.—The accession declaration bill, striking out the phrases offensive to the Roman Catholic church in the declaration made by the king after accession and substituting merely the words "I am a faithful Protestant," was passed by the house of lords upon third reading yesterday. No changes were made in the formula as adopted by the house of commons.

Life on Panama Canal

has had one frightful drawback—malaria trouble—that has brought suffering and death to thousands. The germ cause chills, fever and ague, biliousness, jaundice, lassitude, weakness and general debility. But Electric Bitters never fail to destroy them and cure malaria troubles. "Three bottles completely cured me of a very severe attack of malaria," writes Wm. A. Fretwell of Lucama, N. C., "and I've had good health ever since." Cure stomach, liver and kidney troubles, and prevent typhoid. 50c. Guaranteed by the Red Cross Pharmacy.

Can't Afford It?

LET'S FIGURE IT OUT AND SEE

How much would you charge to go to the grocer's or the provision dealer's?

How much would you give, on a stormy day, to be able to visit a distant friend?

How much would it be worth, in case your child were taken suddenly ill at night, to be able to summon the doctor at once, and, perhaps, by special instructions from him by wire, to be able to give temporary relief pending his arrival or even to save its life?

The expense of a telephone is not figured by what it costs for a whole year, but by how much it saves each time it is used. Therefore, with all these things in mind, ask yourself—

Can I Afford to be without a Telephone?

If you need further details as to cost, ask our Local Office to send a Contract Agent to see you

VERMONT TELEPHONE AND TELEGRAPH COMPANY
